PROFESSIONAL SUMMARY

BCA graduate and MCA student with a strong interest in technology, AI tools, web development, and digital creativity. Currently learning web development and modern AI-assisted workflows through personal projects and practical experimentation. Comfortable using AI tools for research, problem-solving, content creation, and learning. Looking for an opportunity to gain practical industry experience while continuing my studies.

SKILLS

Technical: HTML, CSS, Basic JavaScript, Basic SQL, Firebase, Git & GitHub - Basic Familiarity

AI & Productivity: Generative AI, Prompt Engineering, AI-assisted development, AI productivity tools

Creative: CapCut, VN, basic video editing, Basic Canva & Digital Design

Other: Responsive Web Design, Basic Database Concepts

PROJECTS

Wallixa | Wallpaper Platform

- Built a responsive wallpaper platform using Next.js and modern web technologies.
- Implemented wallpaper browsing, categories, search, and detail-page workflows.
- Worked with Firebase and Cloudinary for application data and media management.
- Used AI-assisted development workflows for implementation, debugging, and iteration.

Alpha Finance Tracker

- Developed a web-based finance tracking project with a responsive interface.
- Focused on practical data entry, organization, and user-friendly presentation.

Weather & Utility Web Projects

- Built small web applications to practice APIs, responsive UI, JavaScript, and frontend workflows.
- Used AI tools to accelerate debugging and learn unfamiliar implementation patterns.

OTHER PRACTICE PROJECTS

- Weather App • Music App • Clothing Website • Restaurant Website • General Store Website These projects were created as part of learning and practicing web development and AI-assisted workflows.

EDUCATION

Master of Computer Applications (MCA) | 2026 - Present

Bachelor of Computer Applications (BCA) | Veer Bahadur Singh Purvanchal University, Jaunpur | 78%

Class XII | 77%

Class X | 88%

ADDITIONAL

Interests: AI tools, prompt engineering, web development, Video Editing, digital design, and Learning Technology through Practical Projects.
